Drupal 7 Posted: 27/09/2011 Creating a comma separated list of taxonomy terms for a node

Lightbox2 doesn't have a D7 release at the time of writing and Thickbox has been discontinued, with the maintainer now working on Colorbox.

This will just show you the basic code that is required for use with a theme using the PHPTemplate engine with some comments on what the code is doing at parts.

based on the average house price in the UK of 170,000 is over 2,000!! Read

An example could be a blog using the Story content type but with an image field on each node and specially set up Views to display the information.
