An alternative can be found in Shadowbox.

want to pay for a bespoke design.

The main problem with this is ending up with one theme for all, to get around this with out having to do any development work is use Drupal's core colour module which allows the user to select the colours of certain areas. The following contrib modules are required: Views Ctools Colorbox I personally prefer Colorbox to some of the other lightbox modules, but feel free to use whichever one you want, they should all work in the same way.
